

## **If I Were a Mayor**

**by Asher W. Lee**

If I were a mayor for a week, The first thing I would do is try to spread happiness. I don't want anything that could harm me or others. The next thing I would do is stop all the bad things that hurt the Earth, because I love nature and want to protect it from danger. Other than that, I would expand baseball programs because I like baseball and want more people to know and play it too. These are my top three things I would do if I were mayor for one week.
